

System Branding

Customizing the look and feel of GoPrint Control Center, Paystations, and the Web Client

The look and feel of the Control Center, PayStation, and Web Client can all be customizable to fit the color scheme and branding of your institution.

CONTROL CENTER BRANDING

PAYSTATION BRANDING

You can import your own PayStation background image and change the station colors and fonts to be consistent with your institution's colors and fonts. You may also use one of the many station template brandings provided.

Hint: to use a template, select Copy Settings from the template properties sheet and then rename the copy.

Customer Logo

Import your institution's logo so it appears at the lower left corner of the payment screen

Refer to the HELP section under the PayStation Branding properties page for additional information.

PayStation Branding - Wallpaper

Create a custom PayStation background image for each of your PayStations.

Recommended file dimensions: 1024 x 750 (recommended file .png)

This screen allows you to customize the font, text size and colors, and graphics that are used by the PayStation. **NOTE:** This branding is a stock branding and may not be deleted. You may modify it, but it is possible that your changes could be overwritten in a future software update. Therefore, it is recommended that you click the Copy button to make a copy of it for your own system. When making copies, remember to update the PayStation properties to use your copy rather than the stock branding.
